November 2020 – July 2024
Orblike Technologies Pvt Ltd / India, Hyderabad

Proppy App

A user-friendly mobile application which has a wide variety of modules for handling properties, Merchants, apartments, security, user household needs etc. This application is basically for users where the user has access to post his needs, buy the required items from merchants, handle the properties which he needs to buy, sell or rent and handle his own house etc.

- Developed responsive pages as per the design given by the client.
- Implemented image upload in the application at required areas.
- Developed necessary reusable components like search bar, image viewer, logout header etc.
- Handled data effectively which is retrieved from the services.
- Coordinated with the backend developers at the time of API development for better output.
- Implemented swipe gestures for swiping items at the required areas.

PROFFIS

A responsive application for multi platforms like mobile, desktop. This is the admin side application where the admin can handle the housing societies, merchants, real estate agents, security etc.

- Developed responsive pages as per the design given which looks good in both mobile & desktop applications.
- Implemented internal messaging between the users in the application.
- Developed necessary reusable components like date picker, responsive dropdown etc.
- Handled data effectively which is retrieved from the services.
- Coordinated with the backend developers at the time of Api development for better output.
- Implemented QR code scan in the application at the required areas.
- Handled lazy-loading in the respective modules which I worked on.

Roles and Responsibilities
- Regular health checkups, Resolving the bugs and developing the demands as per the client needs.
- Design, code and maintain standard APIs based on the story points.
- Follows jeera processes.
- Handled the new enhancements and implemented it based on business requirements.
- Debugging and fixing the errors to deliver effective coding.
- Moving the changes to Production as per the documented rules.
- Participated in peer code review.
